Agreement

I have read and understood the clinic's policies. I agree to the all of the above treatment terms and conditions.

Informed Consent & Disclosure

I, the undersigned, understand that methods of treatment used in this practice may include, but are not limited to, acupuncture, herbal medicine, moxibustion, cupping, electrical stimulation/micro-point stimulation, medical qigong, massage therapy, gua sha, heat therapy, ear seeds, dietary advice, qigong exercise prescriptions, and lifestyle counseling/coaching.

I understand that acupuncture, moxibustion, electrical stimulation, cupping and pricking are all safe methods of treatment. Potential risks include temporary bruising, swelling, bleeding, numbness and tingling, and soreness at the needling site that may last a few days. Very unusual risks of acupuncture include dizziness, fainting, nerve damage, or pneumothorax. Infection is possible, although the clinic uses alcohol and sterile disposable needles and maintains a safe and clean environment. Potential but unlikely risks of moxibustion are burns, blistering, or scarring.

Temporary bruising or redness lasting a few days is a common side effect of cupping and gua sha. I fully understand that there is no implied or stated guarantee of success or effectiveness of a specific treatment or series of treatments. I also understand that certain social habits and medications may decrease the beneficial effects of Chinese medical treatment. These include the use and abuse of alcohol, pain killers, steroids, narcotics, tobacco, anti-depressants, and illegal drugs.

Acupuncture is a natural medicine that works with the body's ability to heal itself but is not a substitute for conventional medical diagnosis and treatment. The results of acupuncture are not always felt immediately, especially with chronic conditions. Frequent, regular treatment is what gives acupuncture and herbs the best results.

I will notify the acupuncturist should I become pregnant or if I am in the process of trying to get pregnant so that my practitioner can avoid points and herbs that could induce miscarriage. Otherwise, Chinese medicine treatment can be very beneficial in the pregnancy and birthing process.

I understand that herbal and nutritional supplements recommended to me by my acupuncturist are safe in the recommended doses. Large doses of herbs taken without my practitioner's recommendation may be toxic, and some herbs are inappropriate during pregnancy. Some possible side effects of herbs are nausea, gas, stomachache, vomiting, headache, diarrhea, rashes, hives and tingling of the tongue. I understand that I must stop taking any herbs and notify my acupuncturist as soon as I experience any discomfort or adverse reactions.

I understand that I can discuss risks and benefits further with my practitioner before signing if I so choose. However, I do not expect my practitioner to be able to anticipate and explain all possible risks and complications of treatment. I rely on the practitioner to exercise his or her judgment in my best interest during the course of treatment, based upon the facts then known.

In signing this form, I acknowledge any inherent risks, and give my consent for treatment, payment and healthcare operations received, incurred or carried out at this practice. I also

certify that I have informed my acupuncturist of all known physical, mental and medical conditions and medications, and I will keep her & The Salt Room updated on any changes.
